[I have finished my degree.] [maybe, but not in the summer, you were rushed.] [If I met the instructor first] [only if it is the only way I can take the needed class] [if a class I need is offered and I feel confident working on the material without classroom instruction] [I am not sure if this will be necessary.] [Too many problems with computer and server. It seems that people with slow computers seem to get the hits. And no credit for something that they can't afford to upgrade. I only have a 133 Pent proc. The KCVU server needs to accept all computer speeds and equipment. It seems that Internet courses will only work if you have the latest model. The Internet class should be made for students who have access at any speed and KCVU server or the instructor should compensate for it.] [If needed] [if needed] [If there is one I need for my degree.] [If I need another class to graduate on time from my college] [I live in Tennessee and attend Murray State University and pay resident rates. It would be far more expensive to take any more online courses through KCVU - otherwise I probably would. ] [Depending on availability] [If I have a chance before I graduate, I would like to take another KCVU course.] [This completed my second degree. I will only take another if I choose to do something else in

the future. I plan to take Graduate classes now.] [if i need another course and it is only offered online]  
 [If required course is available] [I had problems with the internet logging me off and the computer locking  
 up on a test that took over 1 hour. I had 4 hour test. There was no way for the professor to see that i had  
 taken the test part of the way. when it has taken 3 hours of your day and you get kicked off the internet, i  
 wasnt very happy b/c i had to take test over 3 and 4 times.] [I don't know if I will need another course.]

**23. Please offer any additional comments or suggestions that will help us improve your KCVU online learning experience.**

[Confusion about tech fees abound. There should be a flat fee scale based upon # of classes taken. \$90.00/class is excessive] [This was an interesting course but my professor had no contact with us at all. We did not receive our grade for 1 month after the course. ] [The time limit on test should be increased to 90 minutes for a 50 question test.] [I guess I was so frustrated is because it was, for one, during the summer, and the directions that was given was not through. You more or less had to figure it out yourself.] [I was very disappointed with my instructor, and will be forwarding a letter to E.C.C. regarding my dissatisfaction.] [I received no notification about how to start the course. I had to contact PCC directly to get started. Your material indicated that I would receive a packet and I never did. Thanks.] [Internet classes are a great advancement for college students. However, in order to be effective, the instructor MUST be willing to give time and dedication for responding to, and helping students. ] [I had alot of problems with the way this was set up. No one could answer my questions. Elizabethtown College and KCVU were not on the same page about anything. I was never instructed as to how thi] [The summer session was too fast. She sets the example on how a internet class should be taught. My expereince with her was wonderful.] [PLEASE acknowledge registration with a courtesy email and give approximate time frame of password/login ID information. I had to drop a course because I received this information AFTER class began!!] [Very important class that should have been taken as a traditional class (meaning an entire semester); KCVU program may look wonderful "image" wise but not ideal learning situation.] [I took my course at U.K.] [Since teachers are expected to be computer literate, I chose to take this course since I would be 1 hour short on getting my 5th year. Now, I find out they will not count this towards my Rank 11!!!! ] [I enrolled, received my passwords but never heard from the university that I enrolled. So, I didn't get to take the course.] [I was unable to take the course I wanted this summer, so will do so again this fall. Keep up the good work and add more courses . It was great.] [I've stated most of my problems previously. I think the KCVU needs serious upgrading to improve student relations with instructor. e.g. An exam that is timed for one hour and you use AOL. Trouble ] [It was a great experience] [It isn't the KCVU that gave me a bad experience this summer, it

was this specific class/professor. All of my other KCVU classes have been great. This U of L class has been the worst class ever!!!!!!] [The instructor that I had was very good, however, when I wanted my grade on things that I did to see what I did wrong she hardly ever e-mailed them to me. I thought that I had an A, but I got a B.] [The only problem I had with this course was the registration directly with the institution. I have not gotten my grades] [KCVU is wonderful, but MGT 350 is not a class to be taken on-line.] [The instructors must be committed to teaching an online course. In past classes I had a great deal of contact with the instructor, the instructor for this class discouraged direct contact with her.] [I can't think of anything at this time.] [Too many login dialog boxes] [ALL STUDENTS SHOULD BE MADE AWARE THAT THEY HAVE TO HAVE AT LEAST WINDOWS 98 OR BETTER AND CERTAIN PROGRAMS TO OPEN TESTS AND QUIZZES THIS INFORMATION SHOULD BE INCLUDED WITH CLASS INFO. ] [James Dixon is the worst instructor I have ever had. You should strongly consider what is said by instructors in the forums before allowing them to instruct additional classes.] [Was unable to take class, problems arose, maybe next semester can try again.] [I felt that it went so fast, that you didn't even have time to study for the exam. You just were concentrating on getting the massive amount of work done. Plus, you don't know what to study.] [It is hard to find out what I've already registered for until the semester begins.] [I did not like how I could not contact my professor from this past semester. She gave us no email address or phone number for her students to reach her. The lectures were not put together well.] [There was a lot of confusion signing up for the AutoCAD 2000 course. (James Dixon, ECC) He would interfere if students tried to ask ] [Disappointed in administration. No one could answer my questions. My final grade was verbally told to me over the phone a month after the exam. Another month later, I still have no grade report.]
